BOARD

Registering for Kindergarten

When to Register

Registration dates for Junior Kindergarten are announced each year through our website, advertising, school newsletters and church bulletins.

Our schools usually designate a specific time to focus on Kindergarten registration, but they will accept registrations at any time during the school year.

Your Tax Support Helps

We encourage all parents to support Catholic education by completing an Application for Direction of School Support if their tax assessment form shows they currently support the public school system.

At registration time the principal will determine whether the family is eligible to designate school support to the London District Catholic School Board. In order to do so, one parent must be a Catholic as recognized by the Education Act and the parents must be willing to allocate their residential education taxes to support the School Board.

What You Need to Register Your Child

Proof of Age

Children who reach 4 years of age by December 31 of any calendar year will be eligible for admission to Junior Kindergarten in September in that calendar year.

Children who reach 5 years of age by December 31 in any calendar year will be eligible for admission to Kindergarten in September in that calendar year.

For the child to qualify for admission, parents must present proof of the child's age at the time of registration.

A [birth certificate](#), [baptismal certificate](#) or [passport](#) is appropriate proof of age

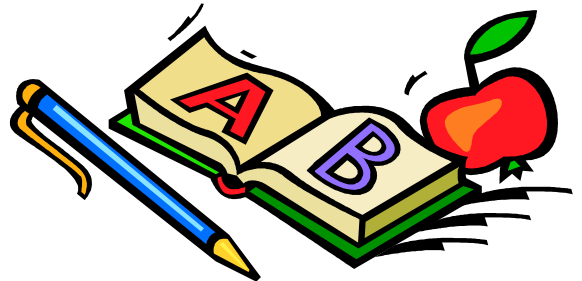

Proof of Baptism

To register your child in our Catholic elementary schools for the first time, a [Roman Catholic Baptismal Certificate](#) must be provided.

If the child does not have a Roman Catholic Birth Certificate, the principal will ask the parents to arrange a meeting with the parish priest or designate to discuss the child's sacramental status. After meeting the priest or designate, parents are asked to contact the school again. If the child's baptismal status is positively confirmed, or if the parish priest gives his recommendation, the principal may complete the registration, if all other eligibility requirements are in place.

Proof of Address

Bringing in your tax assessment form is a good way to provide proof of address. Hydro, telephone or gas bills are also acceptable.
