

# Council of All Beings: Introduction Help Form

What being will you represent at the council?

Where on the Planet Earth are you located?

What 'symbols' might help others to recognize you?

Where did you come from? Were you born? Did you evolve over time?

What does your entity need to survive?

What effects are human beings having on your well-being? Do you know of efforts being made to help you? Are there human activities that harm you and those like you?

What 'issues' are of the most importance to you? (pollution; acid rain; depleting of the ozone layer; the greenhouse effect; pesticide use...)

If you could speak to the human beings, what would you like to say?
