

The Future of Learning

presented by

Premier Assistive Canada

April 6 & 7, 2010
London, Ontario

The Future of Learning Has Arrived!

In their continued quest for education excellence Premier Assistive Canada is pleased to present their first annual learning conference.

The Future of Learning has been designed for teachers by teachers. With topics ranging from “Implementing Premier in the Curriculum Using the Smart Board” to “Registering for Electronic Text”, the Future of Learning conference is sure to inspire excellence in the easy and seamless integration of technology into the classroom.

A special presentation by Dr. Stephanie Timmer, the creative force behind the technology of Premier learning tools will detail future directions of Premier learning technology and tools.

An impressive list of speakers and presenters is sure to enlighten and educate.

The Future of Learning

"The illiterate of the 21st century will not be those who cannot read and write, but those who cannot learn, unlearn, and relearn."

Alvin Toffler, *Rethinking the Future*

Tuesday April 6, 2010

2:15 PM - Break

2:30 PM - Session 3

3:45 PM - Closing

Premier tools, designed to be practical and meaningful, are made more powerful by the host of dedicated teaching professionals who wield them.

Each and every day, teachers arrive in their classroom armed with a desire to teach, a passion for learning and a commitment to students. The dedi-

cation to learning and commitment to excellence demonstrated each day by teachers and administrators maximizes the efficiency of our products and ensures more successful learning experiences. The learning tools we provide are more powerful and more effective when wielded by such dedicated learning professionals.

Premier's "The Future of Learning" has

been designed to bring our dedicated teachers together and to give them a forum to share ideas, celebrate successes and to prepare for a future that is rushing toward us at the speed of light.

Dr. Seuss said "The more that you read, the more things you will know. The more you learn, the more places you'll go." With effective learning tools and dedicated learning specialists, we can give students the opportunity to go anywhere...including the future.
